

Bandit Level 3 - Level 4

Log into level 3!

```
ubuntu@ubuntu:~$ ssh bandit3@bandit.labs.overthewire.org -p 2220
```

Password is: MNk8KNH3Usiio41PRUEoDFPqfxLPISmx

The password is stored in a hidden file in the 'inhere' directory. Use the command `ls` to show the contents of the directory.

```
bandit3@bandit:~$ ls
inhere
```

To move into the 'inhere' directory, use command '`cd`'.

```
bandit3@bandit:~$ cd inhere/
bandit3@bandit:~/inhere$
```

If we use `ls` again, nothing will appear as the file is hidden. Instead we will add `-a` flag to the `ls` command to display all files including hidden files.

```
bandit3@bandit:~/inhere$ ls -a
.  ..  ...Hiding-From-You````
```

To display a hidden file we can simply use the command `cat .filename`. In this case the file name has 3 dots proceeding its filename.

```
bandit3@bandit:~/inhere$ cat ...Hiding-From-You
2WmrDFRmJIq3IPxneAaMGhap0pFhF3NJ
```

Level 4! Lets gooooo!
